PROFESSIONAL SUMMARY

Final-year Artificial Intelligence & Data Science student building practical solutions across data analytics, machine learning, and software development — with hands-on project work spanning developer-tooling platforms, applied ML, and business intelligence dashboards.

EDUCATION

B.Tech – Artificial Intelligence & Data Science

SKP Engineering College, Anna University

2023 – 2027

CGPA: 8.50 / 10.0

EXPERIENCE

Data Analytics — Course & Internship | Cybernaut

Currently Pursuing

- Pursuing a structured Data Analytics program covering Excel, SQL, Power BI, Tableau, data analysis, and visualization, with a 3-month industry internship component.

AI/ML Intern | InternPe

Jul 2025 – Aug 2025

- Gained practical exposure to AI/ML through Python-based tasks, data preprocessing, model evaluation, and problem-solving.

PROJECTS

ForgeMind — Code Intelligence & Architecture Intelligence SaaS Platform

- Developer-focused SaaS platform for understanding and managing complex codebases through repository intelligence, architecture visualization, dependency mapping, code health scoring, and impact/blast-radius analysis, with AI-assisted explanations and remediation as an integrated intelligence layer.
- Implemented GitHub repository connection and workspace handoff, symbol search, graph/topology node inspection, health scoring, an Explain & Fix AI remediation drawer, and blast-radius impact analysis.

Uzhavan AI — AI-Powered Agricultural Assistance Platform

24-Hr Hackathon Prize Winner

- Built a farmer-focused application unifying crop guidance, weather information, market insights, and personalized agricultural assistance as AI Lead & Integration / Presentation Lead in a 4-member team.

Skill Swap Platform — Peer-to-Peer Skill Exchange Platform

Prototype — In Development

- Designing a platform concept connecting people to exchange knowledge and skills directly, using React, FastAPI, and a REST API-based architecture with AI-assisted development tools.

Decoding Emotions Through Sentiment Analysis of Social Media Conversations

- Built a Python (Pandas, VADER) sentiment analysis tool classifying social media text as positive/negative/neutral, with emoji interpretation and an interactive Gradio interface.

Data Analytics Dashboard

- Developed interactive KPI dashboards in Tableau and Power BI, using Excel and SQL for data preparation and analysis to surface business trends.

TECHNICAL SKILLS

Programming: Python, SQL, Java (Basic)

Data Analytics: Microsoft Excel, Power BI, Tableau, Data Analysis, EDA

AI & Machine Learning: Machine Learning, Data Preprocessing, Classification, Model Evaluation, NLP, Sentiment Analysis

Database: MySQL

Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab

Project Technologies: React, FastAPI, REST APIs

CERTIFICATIONS & ACHIEVEMENTS

- AI/ML Internship — InternPe
- Google Cloud Beginner: Cybersecurity
- 30 Days MasterClass in Full Stack Development — NoviTech
- Zero Trust Security & Access Control Bootcamp — NoviTech
- Achievement: Uzhavan AI — 24-Hour Hackathon Prize Winner (AI Lead & Integration / Presentation Lead)

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Analytical Thinking, Teamwork, Adaptability, Time Management

Languages: Tamil, English

Areas of Interest: Artificial Intelligence, Machine Learning, Data Analytics, Data Science, Business Intelligence, Software Development, Cybersecurity
